YES

NO

Ransomware is malware that locks your computer and mobile devices or encrypts your electronic files. When this happens, you can't get to the data unless you pay a ransom. However this is not guaranteed and you should never pay!

Subject: Here the paper will circulate throughout the world

You see that.

I'll send it to a friend who work in the Journals

I just want you to help my sister.

And I ferrai nothing.

So you transferred the € 1,000 was my sister on June 1 as I have told you.

or you will regret it all your life.

you have just 24 hours to meet me, if you did not do.

Then I will rotten you life.

Here the paper will circulate throughout the world

Now answer me before the 24 hour.

Know that my patience limits

Mojca,

Rad bi naredil mednarodno nakazilo v eimprejsnjem moznem easu. Lahko to storite? Sporočite mi, da vam v tem primeru lahko nemudoma posljem ostale podatke.

Z lepimi pozdravi,
Janez Novak

The screenshot shows a portion of an email client's header fields. A dropdown menu is open for the 'To:' field, displaying a list of options: 'To:', 'Cc:', 'Bcc:', and 'Reply-To:'. The 'Reply-To:' option is currently selected and highlighted in blue. A mouse cursor is visible at the bottom of the dropdown menu. The background of the email client interface is light gray with faint, abstract curved lines.
